

# How to settings photoshop for use action

## Basic settings and recommendations :

1. Use the RGB Mode and 8 Bits color
2. Use English versions of Photoshop
3. Be sure the photo set Background from layer (Go to Layer/New/Background from layer)
4. Set the Opacity brush and flow to 100%
5. Best use photo sizes between 2000–3000px

## How to install Actions :

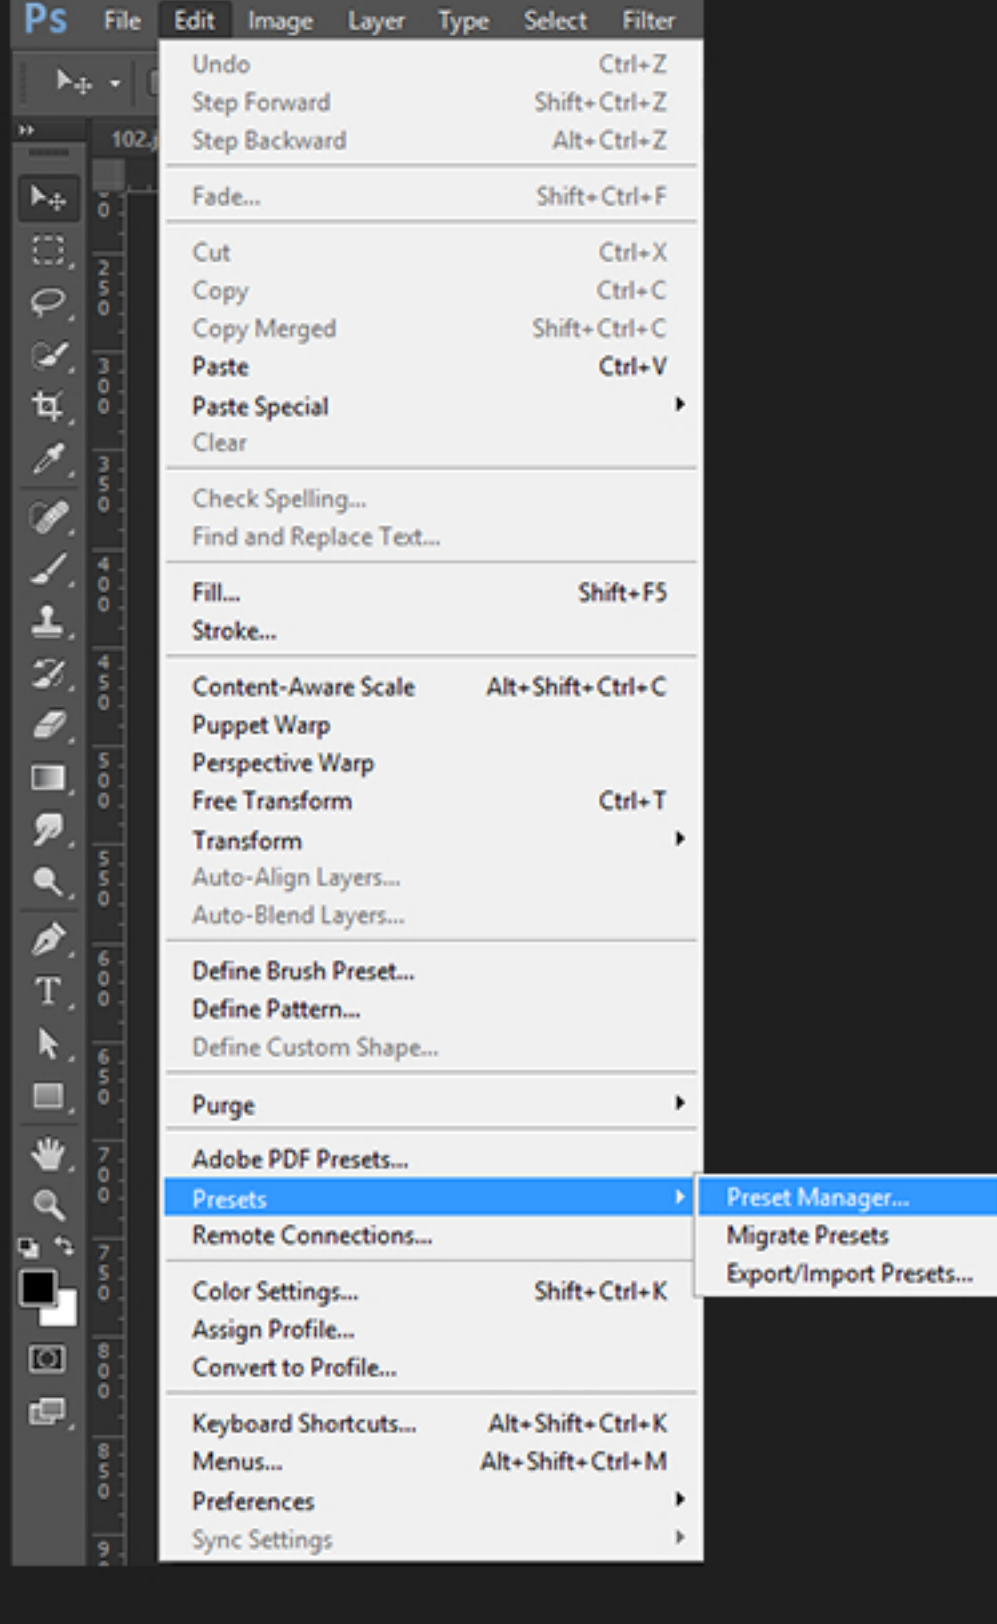

1. Click Alt+F9 to open action panel

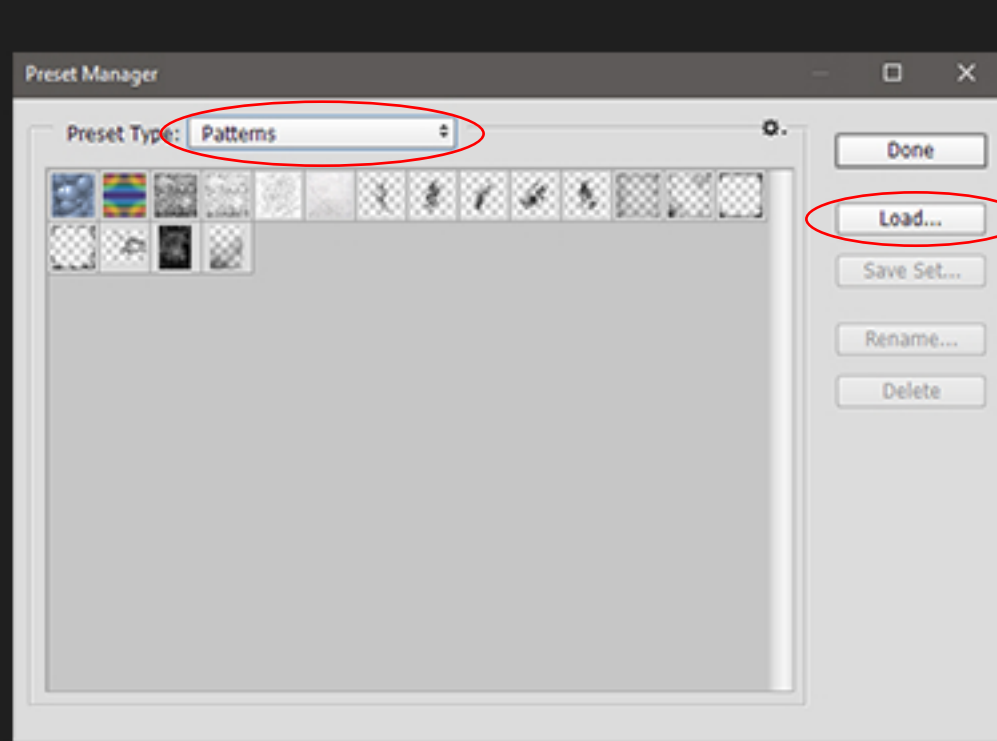

Click load actions and select your ATN file

## How to install Brush and Patterns:

1. Click Edit/Presets/Presets Manager

In Preset Type select Brushes then click Load and select your brushes

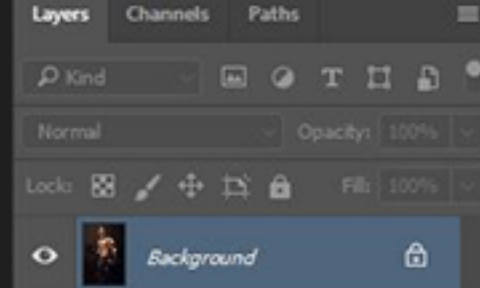

In Preset Type select Patterns then click Load and select your patterns

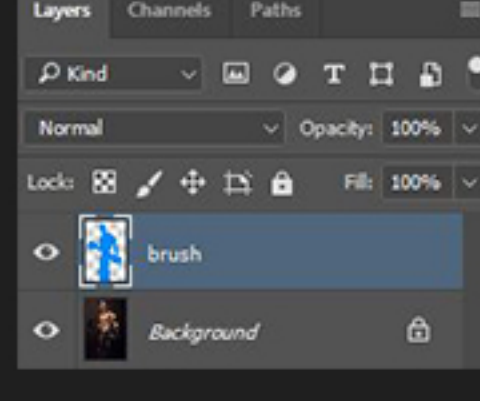

## How to use:

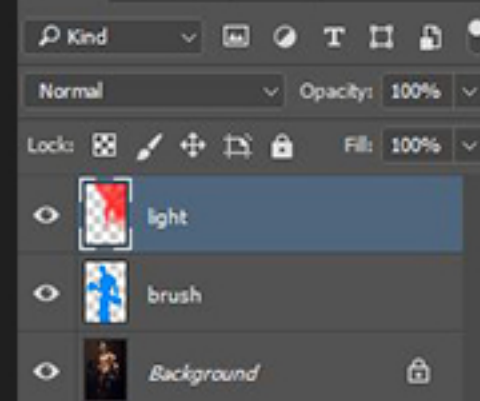

1. Open your photo and be sure Background is locked ( Layer/New/Background from layer)

2. Create new layer, isolate area of interest and name this layer **brush**

3. Create new layer, paint area of light and name this layer **light**

4. Select layer **light** and Play Action
